"Biking trip to Mukteshwar"

★★★★★ Reviewed 4 weeks ago via mobile

Still remenscing, the fantastic riding trip to Mukteshwar. It was accentuated by the wonderful hospitality, care and experience given by the staff n management of the resort in the wilderness called 'The Mountain Trail'.

We were greeted n welcomed upon the arrival, by the ever smiling staff n served us fresh Rhododendron juice. The weather was perfect n the air was pure n crisp.

The ginger tea with mix pakoras n the setting sun in the background with fresh flowers blossoming all around, just made a perfect start to the evening...

The live guitarist playing soulful melodies, fire burning wood n some crispy snacks with Beer n Rum reminded me of green grass of home next to the Country Roads.

The following day we started with a sumptuous breakfast, took a stroll of the property, it has a cute chocolate cum souvenir shop. Each cottage has a fantastic view!. It reminded me of the old heritage home. We had a day out in the midst of the forest n next to the quiet lake in Sattal. The staff spoiled us with amazing well cooked meal.

Evening was again made special with bonfire n live songs n another home made style Indian cuisine. A must try is the Kalimirch chicken. A must visit for those who are fond of Bird Watching, Nature walks, Trekking, flora n fauna.

Tranquillity, solitude, stress buster lead to Happy Hearts, refreshed mind n blissful soul.

Cheers!!!

Dates for the next Pugmark Trail - To be announced soon.
